

# Harry Charles Underwood

Words are poor tools to fashion the appreciation our hearts would like to express when we try to state the meaning of a person like "Doc" Underwood who lived with us intimately and who gave of himself in so many different ways.

First, he brought to us the light of faith. Second, he brought to us the light of truth, Third, he brought to us the light of love.

Growing out of the light of love was a devotion to his church. He gave much time and energy to it. At one point he considered going into the ministry, but circumstances has a way of intervening. His teaching became the way of carrying out his ministry.

During World War II, Mary and Doc's home was always open for those who needed a home while away from home. They were the sponsors of YAG and the Deltas. Groups like the Wilmars, the Glenwood Class, the Homebuilders and the Deltas, have been touched by Doc's wisdom, energy and love.

Harry joined Hollywood First, December 1931, 54 years.
